

Musical glasses

<u>Target group</u>	3-5 years old
<u>Material</u>	4 glasses of water with different quantities of water ; Paper and colour pencils.
<u>Procedure</u>	Experience the sounds that the glasses make with the fingers. Then play with the flute or the xylophone to compare the same sounds (notes). Then ask the group to draw what they have just heard. Make a journal on the wall with the drawings.

Education and Culture DG

<u>Variations</u>	You can put more glasses and have more sounds and play some music when they are drawing.
<u>Aims</u>	<p>Art : Act and create to observe, compare and discover ;</p> <p>Music : discover the different ways to produce sound ; recognize the music sound.</p>
