

The hidden place of sounds

<u>Target group</u>	3-5 years old
<u>Material</u>	Objects making sounds (guitar, maracas, stick, money...)
<u>Procedure</u>	The children make a circle. One of them has to go outside of the classroom and wait. Then, a child goes and hides and makes a sound with an object. After this, the other child can come back inside the classroom and a tries to find him by following the direction of the noise.
<u>Variations</u>	Make the same exercise but the child who looks where the sound comes from is blindfolded and another child helps him
<u>Aims</u>	Refine one's auditory perception; Develop the children's creativity
