

Fruit salad

<u>Target group</u>	4 to 7 years old
<u>Material</u>	Flashcards as visual support with a drawing of 4 main fruits or even show the real fruit (Optional)
<u>Procedure</u>	Children make a circle and each of them has to be a fruit (one of the four fruits chosen). When the teacher says, for instance, «apple », all the apples of the group should move in the circle and change their places. And when the teacher says « fruit salad », all the children have to move and change their positions.
<u>Variations</u>	<p>In order to make it more difficult, you can add more fruits (depending on the quantity of children that are in the group).</p> <p>Another idea would be not to say the word of the fruit but just show it.</p> <p>You could also finish the game eating the fruits that you have</p>

Education and Culture DG

Intensive Programme – 2013

Discovering, creating and learning with all senses

	showed for instance, to taste the flavour.
<u>Aims</u>	<ul style="list-style-type: none"> - Learn to distinguish different fruits by hearing their names and / or looking at the image of the fruit. - Listen and observe carefully and react as fast as they can. - Relate the fruit with the flavour by tasting it (in case you show real fruits).
<u>Comments</u>
