

Observe the environment 'Natural Mosaic'

<u>Target group</u>	4-5 years old
<u>Material</u>	A little trowel or a spoon (something with which you can make a hole), pieces of glass (or plastic), flowers, stones, sticks, grass, leaves, shells etc.
<u>Procedure</u>	Children make a little hole in the ground, after that they have to make compositions from different materials like- stones, flowers, leaves etc. When they have finished it they have to put glass / plastic on the top. So in this way they are creating a picture.
<u>Variations</u>	Children can also make a lot of holes and in this way they create a big mosaic.
<u>Aims</u>	Develop their creativity, Develop patience, Develop imagination, Develop communication skills because they have to talk with other children and decide how the mosaic should look like.
<u>Comments</u>	Do it outside in the nature (in the park, in the garden, at the beach).
