

Making a statue – 3D

<u>Target group</u>	5-6 years old
<u>Material</u>	Photos of each child standing in a statue position. Newspapers Silver paper / alu folie
<u>Procedure</u>	Each child has a picture of himself doing a statue position. Then they get newspaper and try to make a man in the same position, after this they get some silver paper, to wrap around to make it stick together.
<u>Variations</u>	
<u>Aims</u>	The children have to use their concentration to make sure the man looks like the one on the picture. The children also become confident when they see their own picture and have to create it in another material.
