

Looking for details (C2)

<u>Target group</u>	5 years
<u>Material</u>	<ul style="list-style-type: none"> - Pictures taken in advance of objects / elements in the land art installations - Site with land art installations
<u>Procedure</u>	<ul style="list-style-type: none"> - First look at the site with a walk to discover it. - Give a different picture to everyone / to groups of children. - Make the walk again and if somebody can recognize something in his picture he says it and shows it to the rest of the group.
<u>Variations</u>	<ul style="list-style-type: none"> - Bring the children in front of ONE installation, give them a piece of it (a detail) and they have to look carefully at it in order to find the detail they have on their picture.
<u>Aims</u>	<ul style="list-style-type: none"> - Learn to observe in details. - Learn to compare. - Forget the surroundings and concentrate on the things (e. g. picture in autumn and discover the site in spring) - Describe what one has observed. - Situation in space

	- Learn to look at things from another perspective
